Proudly presents a great new product that allows the user to store and charge up to 24 Netbooks or 16 Notebooks at one time.

With a secure locking mechanism and built in power points, it is ideal to store, charge and transport notebooks around a Primary or a Secondary School.

It is the only in its class purposely built in Australia with so many features yet so much more affordable than other models.

To better fit within your environment it comes with choice of over 100 body colours and 8 different door colours.

\$1,699.00 ex GST*

* Delivery charged extra per location: \$80.00 – Metro; \$145.00 – Regional (Victoria only – please contact us for other states)

Polypropylene Doors

According to Greenpeace, polypropylene (PP) is an environmentally preferred product producing fewer pollutants during use and disposal than commonly used PVC or PS (High-impact polystyrene) products. PP does not present any OH&S hazards, and offers excellent resistance to stress, is highly resistant to cracking, is non-toxic, non-staining is easy to produce and readily recycled^(*).

Recycled Materials

The amount of recycled content of materials used in the manufacture of units ranges from Steel up to 20% recycled content (reference Bluescope Steel) Powder coatings contain up to 5% recycled material (reference Dulux Australia). Additionally, a significant amount (15-20%) of powder is recovered from the spray

booths and is either blended with virgin powder or used as recycled powder for the painting of less critical surfaces such as inside panels and shelves. PP Extrusions for tambour doors contain 5% recycled material (reference Rehau). Aluminium extrusion for tambour doors less than 30%. All production off-cuts are segregated from other wastes and are sent to recyclers.

High Security

To keep your valuables safe, we use a high-quality German-made locking. Another level of protection comes from the limited-access replacement keys. [All locks carry a serial number, with keys] only available from us. Replacements cannot be duplicated by the locksmiths.

5 Year Warranty

We undertake to replace or repair any component found to be faulty in material or workmanship within a period of five years from the date of manufacture. We take no responsibility for items stored in this unit for overheating.

Construction

Features: lockable door with standard Huwil locking system, counterbalanced roll-up tambour door, matching heavy duty 100mm twin-wheel castors in metallic silver and locking front castors and charging power points.

Colours: cabinet body and accessories are available in over 100 colours and finishes as standard. Please use colour chart at the end of this brochure when placing your order.

Doors: Polypropylene Tambour doors are available in white, black, silver grey, post grey, charcoal, beige, bereft, bright silver, (translucent only available in PVC).

Finish: high performance, inert powder coat finish, including antirust iron phosphate pre-treatment.

2 Models – Notebook Model and Netbook Model

To ensure maximum security and functionality **Trolley 4 U** comes in two variants:

Notebook model can hold up to 16 notebooks (depending on the size shelves can be readjusted to fit even the biggest models). For your convenience there is a drawer for the bits and pieces. 4 way power-board is permanently attached to the inside of **Trolley 4 U** and 3 more 6 way power-boards are included in a package. To keep it all tidy, a pack of cable ties and number labels are also included.

Netbook model can hold up to 24 netbooks (depending on the size shelves can be readjusted to fit models up to 11"). 4 way power-board is permanently attached to the inside of **Trolley 4 U** and 4 more 6 way power-boards are included in a package. To keep it all tidy, a pack of cable ties and number labels are also included.

Please let us know what models of netbooks or notebooks you intend to securely charge and store in **Trolley 4 U** so we can ensure best fit out for your needs.

High Versatility

All parts of **Trolley 4 U** are adjustable and can easily be rearranged to accommodate your needs. Its design allows for neat cable management. Power cords are placed behind the shelves and transformers are placed behind the divider holder.

Trolley 4 U comes with everything you need including the power-boards, cable ties and number labels.

We will deliver the **Trolley 4 U** to your door and if you don't feel like installing it yourself, we can do it for you for a small fee.

Colour Charts

Please choose door colour from 8 available shown in the chart on the right. Also, please ensure that you choose body colour from the chart on the following pages and clearly indicate them when placing your order.

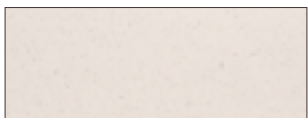

TRANSLUCENT	BEREFT
BRIGHT SILVER	BLACK
SILVER GREY	BEIGE
CHARCOAL	WHITE

Note: Netbooks or notebooks are shown for the information only and are not included in price of **Trolley 4 U**. Should you require them as well, please let us know and we can provide the competitive quote for you.
